During the post shipment inspection on 21 Mar 2019, 4 x items were rejected by consignee (vide letter ref 'A') which constitute **3 % of the total quantity**, with details as under:-

Ser	Part Number	Nomenclature	A/U	Rejected Quantity
a.	1020-ZO-101-9130	Extractor Arty Cartridge Lower	Nos	12

d.	PCH-24907	Counter Recoil Cylinder	Nos	01

2. The items were rejected on minor observations such as painting issues etc; once the firm was approached for rectification of observations, firm's stance was that on account of obsolescence of the main equipment, these parts are currently no more in the production line. Hence, it was decided that the rejected items be repaired in collaboration with HIT at the firm's

expense, but the option adopted could not be materialized, currently the items are lying in 301 Spares Depot.

3. In the wake of the *items not currently in production line* and the *meagre qty involved* (rejected qty) *viz-a-viz the long outstanding contract* (since 2016), following is recommended:-

- a. Closure of contract on **Reduced Demand basis**.
 - b. **Subtraction of the funds** i.e \$ 30,121.50 from the NORINCO 20 % amount held with this office.
 - c. Utilization of funds against **procurement of critical spares required by EME**.
4. Forwarded for consideration, please.
